**Improve Your Organization's Data Management with Prosperity Indiana's Outcomes Platform**

In recognizing the need to more readily and clearly tell the story of comprehensive community development outcomes, Prosperity Indiana has licensed a data collection and reporting system for use across the membership. This system is the Outcomes Platform.

The Outcomes Platform is a cloud-based data collection and reporting platform, utilizing a system called InsightVision, that addresses two critical areas of outcome analysis for Prosperity Indiana and its members: 1) organization performance outcomes and 2) collective impact strategy outcomes. Prosperity Indiana hopes that this platform will create an environment where nonprofit outputs are not only sought and delivered, but also where broader organizational and community-level impact is increasingly documented, measured, and shared through a common outcomes framework.

The Outcomes Platform is being offered at a discounted rate to Prosperity Indiana members. If your organization is looking for a way to improve your own internal data management or you are collaborating with other organizations for larger community impact, contact Andy Fraizer at afraizer@prosperityindiana.org for more information about how your work could benefit from the adoption of the Outcomes Platform.

**Action Alert: Urge Congress to Enact Equitable Tax Reform**
Congress is currently debating tax reform proposals that will have dramatic implications for community development programs and incentives. Learn more [here](#) and click on our action alert to urge your senators and representative to enact equitable tax reform.

**Early Bird Registration is now open for the Prosperity Indiana Summit & Statehouse Day!**

The 2018 Prosperity Indiana Summit and Statehouse Day will be held January 23-24, 2018. The focus of this annual gathering of Prosperity Indiana's members and partners will be the intersection of community health and community development.

[Click here to register](#)
The 2018 Summit will explore the intersection of community health and community development, with sessions on:

- Leveraging Affordable Housing Policy for Healthy Communities
- Access to Food Choices in Food Deserts
- Your House is Making You Sick
- Active Living Workshops 101
- Perspectives on Building Healthy Places
- Treating the Opioid Crisis at the Neighborhood Level
- Using Community Health Needs Assessments to Engage Nonprofit Hospitals
- Vacant Property Legal Assistance to Stabilize Neighborhoods
- Transit and Community Health

We're pleased to announce that Dr. Lisa Harris, CEO of Eskenazi Health, will deliver the morning keynote address. Dr. Harris has practiced medicine for over 30 years and has dedicated her career to improving health care for vulnerable and underserved populations. She leads one of America's largest safety-net health systems and has served on multiple boards throughout the community. Dr. Harris will share why she values partnering with the community development sector and examples of how Eskenazi Health seeks to address the social determinants of health.

David Erickson, Director of Community Development at the Federal Reserve Bank of San Francisco, will deliver the lunch keynote address. Erickson led the collaboration between the Federal Reserve and the Robert Wood Johnson Foundation to bring together the health and community development fields. He's also fostered initiatives exploring innovative community development financing models and intersections with the health, arts, and environmental sectors to identify new investible opportunities that benefit lower-income communities. His address will be based on his essay "The March Toward Outcomes-Focused Financing."

World Town Planning Day
November 8 was World Town Planning Day. World Town Planning Day was initiated in 1949 by the late Professor Carlos Maria della Paolera of the University of Buenos Aires to advance public and professional interest in planning, both locally and abroad. In the meantime, the World Town Planning Day is celebrated in 30 countries on four continents each November 8. It is a special day to give recognition to the ideals of community planning which brings professional planners and the general public together. World Town Planning Day presents an opportunity to look at planning from a global perspective.
