Achievable Vision

Relationships are a shared story where interests and assets meet, networks form, and people act on mutual commitments.

As relationships grow and interests overlap, people identify and invest assets to grow wealth.

As relationships need and interests wane, people identify and exit assets in a given wealth.

Leadership is a search for and development of leadership in community shareholders. Shareholders build relationships (organize), formulate strategy (decide), and collectively execute (act) on a shared, achievable vision.

5. Shared Vision is Achieved by Mobilizing Community Assets, Exchanging Resources, Intentionally Collaborating, and Constantly Adapting

Every Community is Different: Adaptive Prosperity Is and Never Looks Exactly the Same
